Phoenix Data Center (AZP-2)

AZP-2 is a hyperscale-ready data center powered by 100% renewable energy. It offers potential customer space of 547,000 ft² and 48 MW of max IT load at full build-out. The data center is in a 39-acre campus just 10 minutes east of downtown Phoenix and offers exceptional levels of energy-efficiency. It is connected via a 100 Gbit/s dark fiber ring with two otherIron Mountain facilities – AZP-1 (on the same campus) and AZS-1 inScottsdale, creating a raft of ready-to-go carrier and cloud connectivity options.

Why choose AZP-2?

› **Scale**
   Swift route to up to 48 MW of infrastructure with world-leading compliance and efficiency.

› **Incentives**
   Qualifying Arizona data center customers may reduce costs by taking advantage of lucrative tax incentives.

› **Connectivity**
   Huge selection of carriers and other cloud on-ramps for instant interconnection

" We were able to reduce our previous colocation costs by about two-thirds, and we are benefiting from a state-of-the-art facility. "
CBS Interactive

Phoenix
Data Center (AZP-2)

IRON MOUNTAIN®
D A T A   C E N T E R S

AZP-2 is hyperscale-ready, with 21,000 ft^2 data halls with up to 6MW capacity each, delivering any density required. Whatever your needs, AZP-2 can provide the space, design and standards you need.

Standards
> 30+ years of colocation excellence
> The most comprehensive compliance program in the business
> The only provider to comply with ISO27001 (info sec) ISO 50001 (energy) ISO14001 (environment) and ISO9001 (quality management) worldwide

Services
> Smart Hands
> Migration
> Cross Connects
> IP Transit
> Metro Wave
> Peering
> Cloud On-Ramp

Sustainability
> 100% green power
> Ultra-efficient operations
> Award-winning customer carbon credits solution

Interconnection
> Carrier and cloud-neutral for a thriving ecosystem
> All major cloud providers, SDNs, CDNs, IXs and global tier 1 networks
> Huge range of global and regional networks
> Hundreds of ISPs and MSPs

Quick Reference Guide for AZP-2			
Campus	**Data Center**	**Interconnection**	**Compliance**
39-acre campus	Over 500,000 ft^2 maximum capacity	Carrier-neutral	NIST 800-53
Iron Mountain owned	Up to 48 MW	Cloud-neutral	FISMA HIGH
Maricopa County	Powered by 100% renewables	40 + carriers	FedRAMP
Phoenix, AZ	Concurrently maintainable	100 Gbps ring AZP-2, AZS-1	SOC 2 Type II, SOC 3
Location: East of downtown	Highly secure campus	Metro access to AWS®, Azure®	PCI-DSS
Facility type: hyperscale-ready	Offices, conf rooms, break room	260-strong DC ecosystem	HIPAA
Utility: Arizona Public Service		Diverse fiber points of entry	ISO 9001, 14001, 22301, 27001, 50001

About Iron Mountain Data Centers

Iron Mountain Data Centers operates a global colocation platform that enables customers to build tailored, sustainable, carrier and cloud-neutral data solutions. As a proud part of Iron Mountain Inc., a world leader in the secure management of data and assets trusted by 95% of the Fortune 1000, we are uniquely positioned to protect, connect and activate high-value customer data. We lead the data center industry in highly regulated compliance, environmental sustainability, physical security and business continuity. We collaborate with our 1,300+ customers in order to build and support their long-term digital transformations within our 4M+ SF global footprint spanning 3 continents.
